

Run your coaching center like a business, not a WhatsApp group.

A complete website, live-class, and management platform for coaching centers and colleges — built, launched, and supported end to end.

Custom software, built and run personally by Sourav Lahon · lahon.in

successpointgogamukh.com — live today

Every coaching center hits the same wall

Great teaching, invisible operations — growth stalls not because the coaching is bad, but because everything behind it is improvised.

Invisible online

Parents comparing institutes on their phone at 10pm never find you, and never call.

Classes scattered everywhere

A Zoom link here, a WhatsApp group there, recordings uploaded somewhere else.

Admin eats the whole day

Enrollments, fee follow-ups, faculty coordination — all tracked by hand, in someone's head.

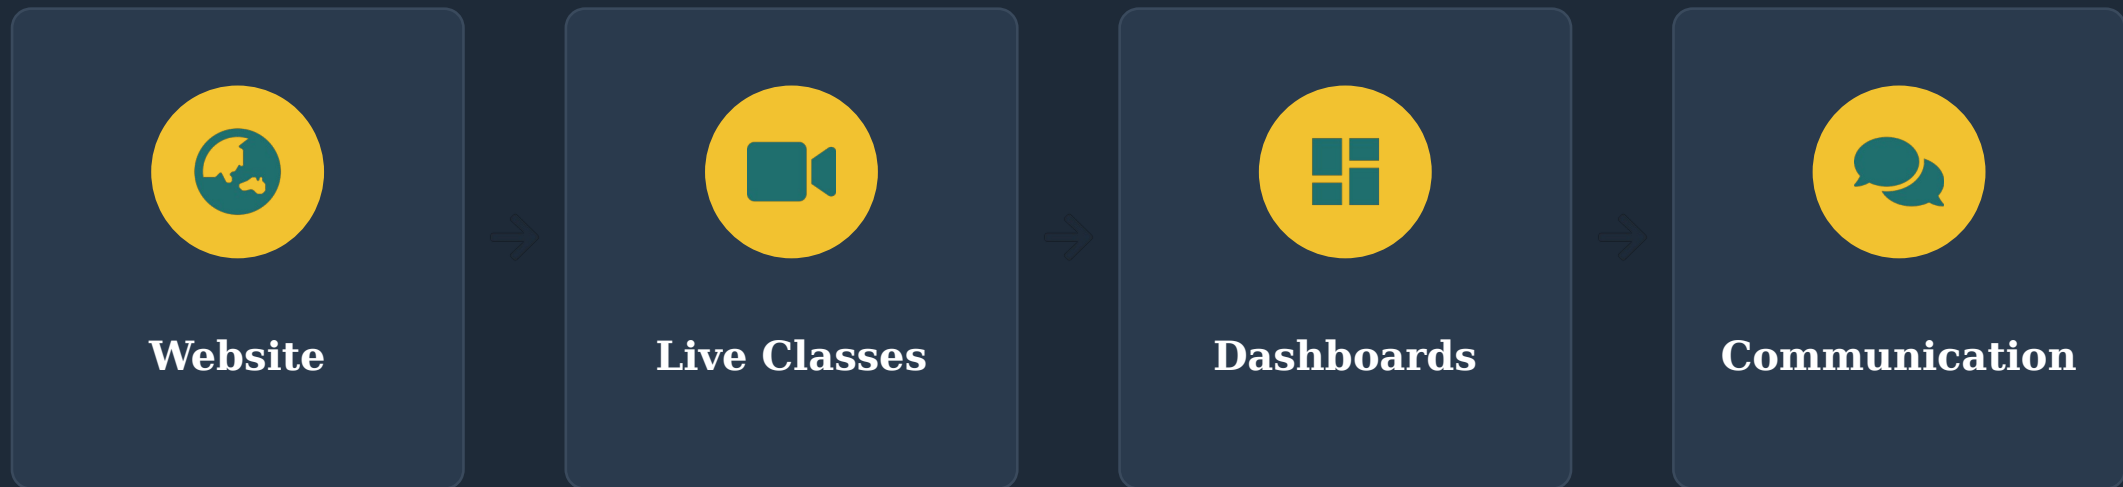

No real record of anything

No way to see who's actually enrolled, who answered a student's doubt, or who changed a price.

One platform. Everything runs through it.

A public website that wins admissions, live classes without third-party apps, a dashboard for every role, and a record of everything — one system, not five subscriptions.

Every screen that follows is the live platform, in production today.

Not a concept. A real platform, live today.

Success Point Gogamukh

Gogamukh, Dhemaji District, Assam

NEET, JEE, board-exam tuition (Classes IX–XII), and Assam government exam coaching (ADRE, SSC GD, Assam Police). Zero online presence before this platform.

4

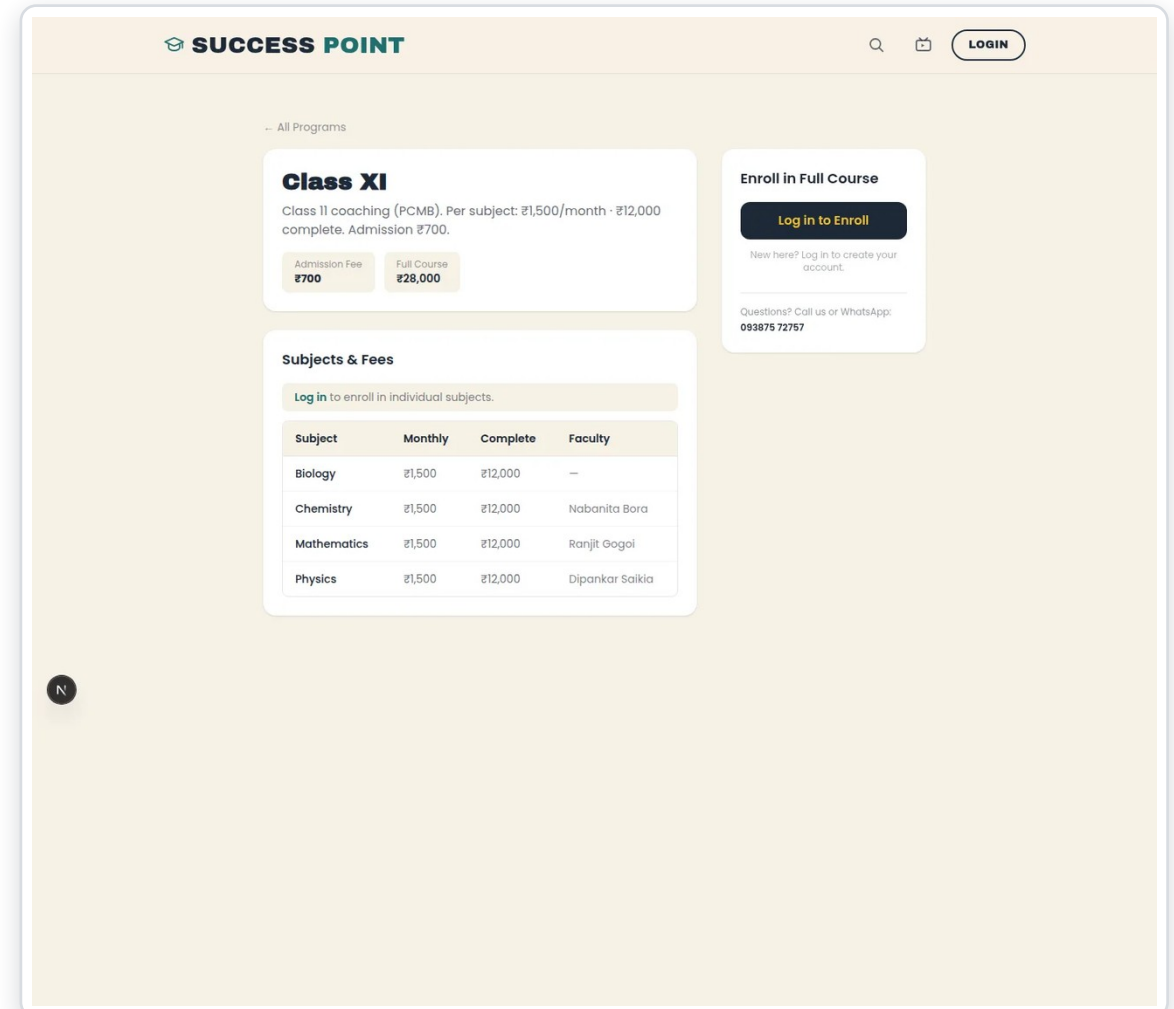

role-based dashboards

16

active courses live

100%

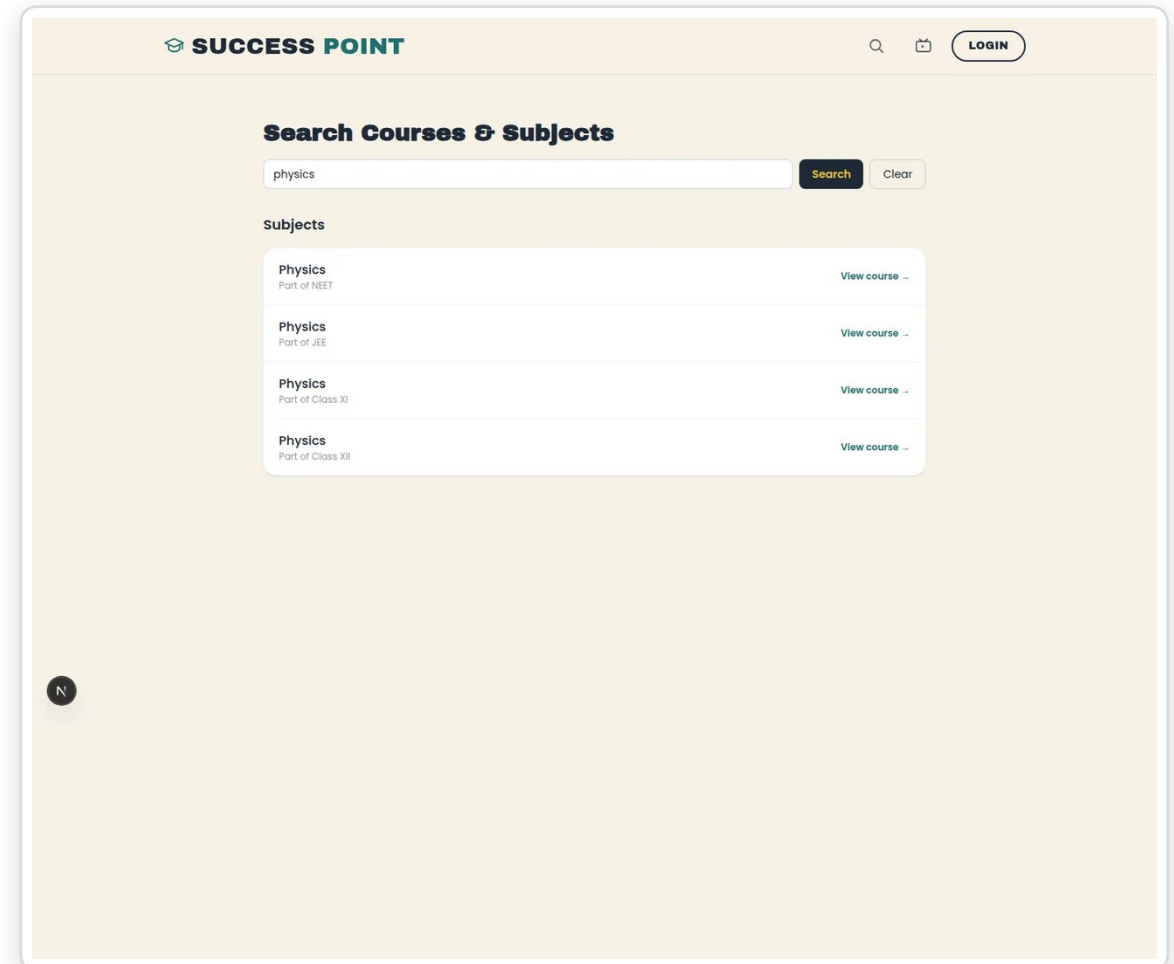

of enrollments tracked, none on paper

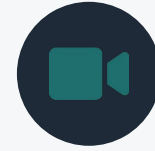

A website that actually wins admissions

- ✓ Exam badges, program cards, and transparent fees — no “call for pricing”
- ✓ Floating WhatsApp button, click-to-call, embedded map
- ✓ Search: find any course or subject by name from the header
- ✓ Full SEO — metadata, JSON-LD, sitemap — so Google can actually find you
- ✓ Installable as an app on Android and iOS, works offline

Live classes without Zoom or YouTube subscriptions

SUCCESS POINT Overview Courses Online Class Students Announcements **FACULTY** Sign out

Online Class

Pick a course, subject, chapter, and topic to start a live class.

COURSE

ADRE Grade-III ADRE Grade-IV Assam High School TET Assam Higher Secondary TET Assam Police Constable (AB/UB)
Assam Police Sub Inspector (SI) (AB/UB) Assam TET (LP & UP) Central TET (LP & UP) Class IX Class X **Class XI** Class XII
JEE NEET RRB NTPC SSC GD

ALSO REACH STUDENTS IN (OPTIONAL)

☐ ADRE Grade-III ☐ ADRE Grade-IV ☐ Assam High School TET ☐ Assam Higher Secondary TET ☐ Assam Police Constable (AB/UB)
☐ Assam Police Sub Inspector (SI) (AB/UB) ☐ Assam TET (LP & UP) ☐ Central TET (LP & UP) ☐ Class IX ☐ Class X ☐ Class XII ☐ JEE ☐ NEET
☐ RRB NTPC ☐ SSC GD

SUBJECT

Biology Chemistry Mathematics
Physics

CHAPTER

Mechanics × Optics ×
New chapter name
+ Add Chapter

TOPIC

Refraction of Light ×
New topic name
+ Add Topic

Go live in one click: pick course → subject → chapter → topic

Cross-link one class to reach students in other batches too

Ending the class cuts off every watching student automatically

Every join is logged for attendance — a real record, not a guess

Playback watermarked with the viewer's identity

Everyone gets exactly what they need

Four roles, four dashboards — nobody sees more than they need to.

Owner

Everything admin can do, plus billing

Every course, its own space

Students don't hunt through chats for this — each enrolled course carries its own dashboard, recordings, materials, and doubts.

The Student Dashboard features a top navigation bar with 'Dashboard', 'Online Class', 'STUDENT', and 'Sign out'. A welcome message 'Hello, Priyanka Deka' is followed by the motivational text 'Keep going — your goal is closer than you think.' Below this is an 'Online Class' button with the text 'Join a live class or watch a recording'. The 'My Courses' section displays 'Class XI' with details on coaching fees and enrollment date, and a link to 'Recordings & Materials'. The 'Available Courses' section shows a grid of course cards for Class XII, ADRE Grade-III, NEET, Class X, Class IX, and Central TET (LP & UP), each with an 'Enroll' button.

Student Dashboard: enrolled courses, live classes, and quick links to everything else

The Course Materials page shows 'ALL RECORDINGS' for 'Chemistry · Organic Chemistry · Hydrocarbons' and 'Physics · Mechanics · Newton's Laws of Motion', each with a 'Watch Recording' button. Below is the 'QUESTIONS' section with an 'Ask Question' prompt. Two question cards are visible, each with a student's question, a subject tag (Chemistry or Physics), an answer input field, and an 'Answer' button.

Course Materials: recordings and files, with Ask Question embedded right below — scoped to that course

Announcements and doubts, built in

No more “did everyone see this” over WhatsApp, and no more doubts that vanish into a group chat.

Announcements

Sends a push notification to recipients who have notifications enabled. Faculty, admin, and master can reply and react below.

Title

e.g. Holiday notice

Message

Write the announcement recipients will see...

Link (optional)

e.g. a form, payment page, or resource link

Tapping the notification opens this instead of the dashboard.

Best way to memorize the periodic table trends?

Any tricks for remembering how atomic radius and electronegativity change across a period vs down a group?

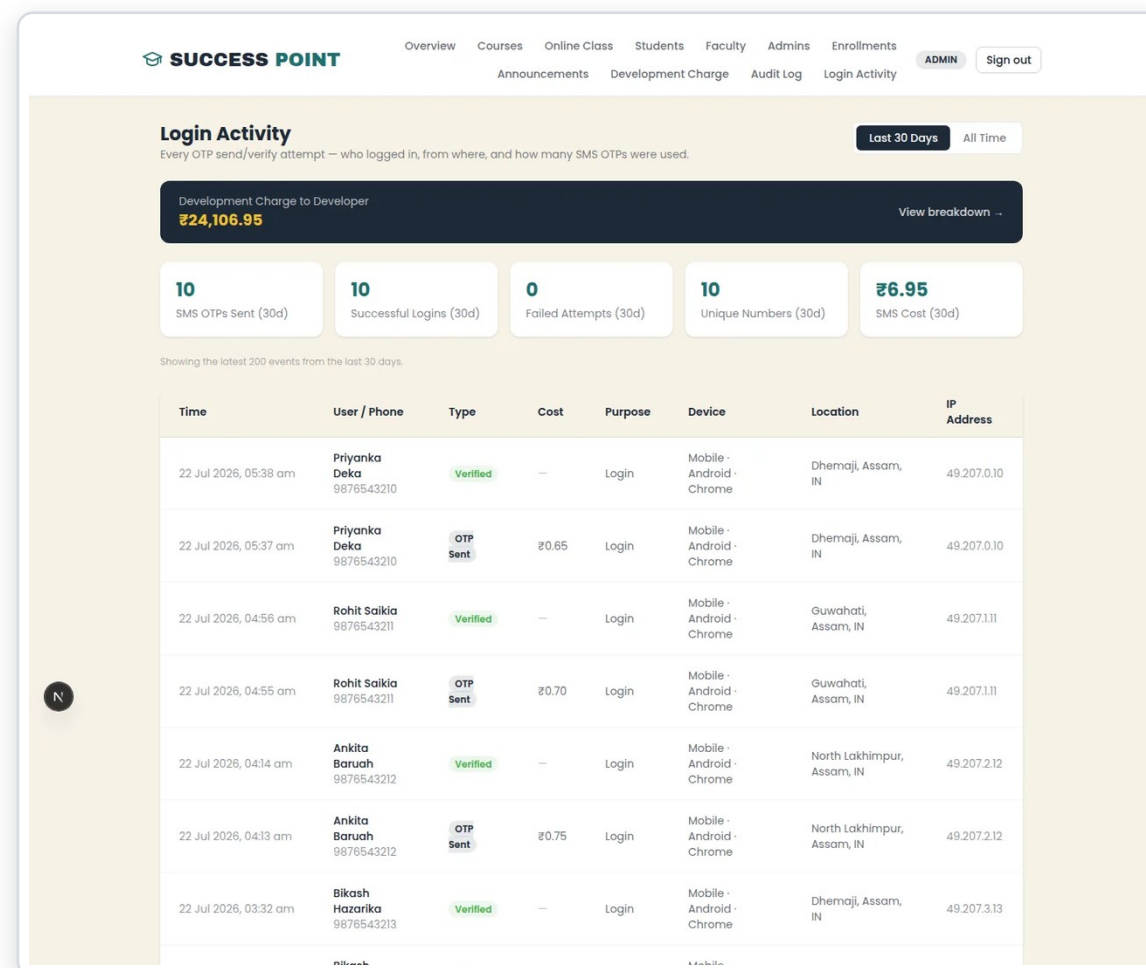

Chemistry

Ask Question: a social-style Q&A feed with ✅/❌ answer reactions

Every action, logged automatically

- ✓ An immutable audit log of every price, faculty, and enrollment change
- ✓ Login activity by device and location, for every OTP and password attempt
- ✓ Phone number verified once, then a password — no SMS cost on every login
- ✓ Self-service forgot-password, no admin has to get involved

Built around how you actually run

This isn't an off-the-shelf product you bend your institute around. Everything below has been built or can be — tell me how you work, and it gets built that way.

Complaints & grievances

Students or parents raise an issue privately; staff track it through to resolution, with a record.

Attendance & leave

Mark attendance per class, flag shortfalls early, and let faculty apply for leave in the system.

Fees & installments

Who has paid, who is due, automatic reminders — instead of a register and phone calls.

Tests & report cards

Record test scores, publish results to students, and show progress over the year.

Parent access & alerts

A parent view of attendance, fees, and results, with SMS or push for anything urgent.

Staff, roles & payroll

Salary records, staff attendance, and finer permissions than the four standard roles.

Anything specific to your institute — if you can describe it, it can be built in.

What this actually changes

Found by new families

Ranks and converts visitors who'd never have called otherwise.

Hours back every week

Enrollments, pricing, and faculty changes take minutes, not phone calls.

Nothing falls through the cracks

Every login, price change, and doubt is tracked automatically.

One system, four roles

Students, faculty, admins, and the owner each get their own view of it.

How we build it

A straight line from first call to a platform your students are actually using.

1

Discovery

One call to map your courses, batches, and what “done” looks like for you.

2

Build

Your site, dashboards, and live-class flow, built against your real content.

3

Launch

Go live with your own domain, branding, and a working admissions funnel.

4

Support

Direct access to the person who built it, not a ticket queue.

Choose how much you need

Your first year includes full setup — renewals cost less. Every tier is configured with your courses and branding.

Website

Get found, get called

₹20,000 first year

then ₹12,000 / year · ₹1,000 / month

- ✓ Public site with SEO
- ✓ Course catalog & search
- ✓ WhatsApp + click-to-call
- ✓ Installable PWA

MOST POPULAR

Website + Dashboards

Run the whole operation

₹60,000 first year

then ₹36,000 / year · ₹3,000 / month

- ✓ Every feature of the Website plan
- ✓ Student / faculty / admin dashboards
- ✓ Live classes & recordings
- ✓ Announcements, Ask Question & push notifications
- ✓ Enrollment tracking, audit log & login activity

Full Platform + Custom

Built to your workflow

₹90,000 first year

then ₹54,000 / year · ₹4,500 / month

- ✓ Everything in Website + Dashboards
- ✓ Custom features built for you
- ✓ Complaints, attendance, fees, report cards
- ✓ Your custom features maintained & supported

Every plan includes up to 150 active students — ₹150 per student / year beyond that.

Monthly payment available on any plan · Custom development quoted separately · ₹15 per SMS verification

Know the developer

You can read exactly how this platform was built and why, before you commit to anything.

Success Point Gogamukh: The Full Technical Build

The engineering behind it: Next.js, Prisma and PostgreSQL, OTP onboarding, and live classes.

lahon.in/blog/building-success-point-gogamukh

Let's build your platform

One call to see if this fits your institute — no obligation, no generic sales pitch, just a straight look at what it'd take to get you live.

Would you like a live demo?

I'll walk you through the working platform end to end on a call — go live in a class, post an announcement, answer a doubt, and see the logs update.
